standard must be conducted according to this section.

Sec. 14. Each cigarette listed as a brand in a certification submitted under section 21 of this chapter that uses lowered permeability bands in the cigarette paper to achieve compliance with the performance standard in section 12 of this chapter must have at least two (2) nominally identical bands on the paper surrounding the tobacco column. At least one (1) complete band must be located at least fifteen (15) millimeters from the lighting end of the cigarette. For cigarettes on which the bands are positioned by design, there must be at least two (2) bands fully located at least fifteen (15) millimeters from the lighting end and ten (10) millimeters from the filter end of the tobacco column, or for nonfiltered cigarettes ten (10) millimeters from the labeled end of the tobacco column.

Sec. 15. (a) A manufacturer of a cigarette that the state fire marshal determines cannot be tested by the test method in section 13(a) of this chapter shall propose a test method and performance standard for the cigarette to the state fire marshal. Upon approval of the proposed test method and a determination by the state fire marshal that the performance standard proposed by the manufacturer is equivalent to the performance standard in section 13(c) of this chapter, the manufacturer may use the test method and performance standard to certify the cigarette under section 21 of this chapter.

(b) If the state fire marshal determines that:

(1) another state has enacted reduced cigarette ignition propensity standards that include a test method and performance standard that are the same as those contained in this chapter; and

(2) the officials in that state responsible for implementing those requirements have approved the proposed alternative test method and performance standard for a particular cigarette proposed by a manufacturer as meeting the fire safety standards of that state's law or rule under a legal provision comparable to this section;

the state fire marshal shall authorize that manufacturer to use the alternative test method and performance standard to certify that cigarette for sale in Indiana, unless the state fire marshal demonstrates a reasonable basis for why the alternative test should not be accepted under this chapter. All other applicable requirements of this chapter apply to the manufacturer.

Sec. 16. Each manufacturer shall maintain copies of the reports

C
o
p

of all tests conducted on all cigarettes offered for sale for a period of three (3) years and make copies of these reports available to the state fire marshal and the attorney general upon written request. Any manufacturer that fails to make copies of these reports available within sixty (60) days after receiving a written request is subject to a civil penalty not to exceed ten thousand dollars (\$10,000) for each day after the sixty (60) days that the manufacturer does not make the copies available.

Sec. 17. The commission may adopt a subsequent ASTM Standard Test Method for Measuring the Ignition Strength of Cigarettes upon a finding that the subsequent method does not result in a change in the percentage of full length burns exhibited by any tested cigarette when compared to the percentage of full length burns the same cigarette would exhibit when tested in accordance with ASTM Standard E2187-04 and the performance standard in section 13(c) of this chapter.

Sec. 18. (a) Beginning July 1, 2011, every three (3) years the state fire marshal shall review the effectiveness of this chapter and issue a report that includes the state fire marshal's findings and, if appropriate, recommendations for legislation.

(b) The state fire marshal shall transmit a copy of the report required under subsection (a) in an electronic format under IC 5-14-6 to the executive director of the legislative services agency for distribution to the members of the general assembly.

Sec. 19. The requirements of section 12 of this chapter do not prohibit any of the following:

(1) A wholesale or retail dealer from selling the dealer's existing inventory of cigarettes on or after July 1, 2009, if the wholesale or retailer dealer can establish that state tax stamps (as defined in IC 6-7-1-9) were affixed to the cigarettes before the effective date and if the wholesale or retailer dealer can establish that the inventory was purchased before the effective date in comparable quantity to the inventory purchased during the same period of the prior year.

(2) The sale of cigarettes solely for the purpose of consumer testing. For purposes of this subdivision, the term "consumer testing" means an assessment of cigarettes that is conducted by a manufacturer (or under the control and direction of a manufacturer) for the purpose of evaluating consumer acceptance of the cigarettes, using only the quantity of cigarettes that is reasonably necessary for the assessment.

Sec. 20. Subject to the requirements of this chapter, the state

C

1 fire marshal shall implement this chapter in a manner to obtain
 2 uniformity with the implementation and substance of the New
 3 York Fire Safety Standards for Cigarettes (N.Y. Exec. Law Section
 4 156-c).

5 Sec. 21. (a) Each manufacturer shall submit to the state fire
 6 marshal a written certification attesting that:

7 (1) each cigarette listed as a brand in the certification has
 8 been tested as required under section 13 or 14 of this chapter;
 9 and

10 (2) each cigarette listed in the certification meets the
 11 performance standard in section 13(c) or 15 of this chapter.

12 (b) Each cigarette listed in the certification must include the
 13 following information:

14 (1) Brand, or trade name on the package.

15 (2) Style, such as light or ultra light.

16 (3) Length in millimeters.

17 (4) Circumference in millimeters.

18 (5) Flavor, such as menthol, if applicable.

19 (6) Filter or nonfilter.

20 (7) Package description, such as soft pack or box.

21 (8) Marking under section 23 of this chapter.

22 (9) The name, address, and telephone number of the
 23 laboratory, if different than the manufacturer that conducted
 24 the test.

25 (10) The date that the testing occurred.

26 (c) The certifications must be made available to the attorney
 27 general for purposes consistent with this chapter and the
 28 department of state revenue and the alcohol and tobacco
 29 commission for the purposes of ensuring compliance with this
 30 section.

31 (d) The state fire marshal may accept as evidence of compliance
 32 with this chapter certifications issued by another state that has
 33 substantially equivalent legal requirements relating to fire safe
 34 cigarettes.

35 (e) Each cigarette listed as a brand in a certification under this
 36 section must be recertified every three (3) years.

37 (f) For each brand of cigarette listed in a certification, a
 38 manufacturer shall pay a fee to the state fire marshal of two
 39 hundred fifty dollars (\$250). The state fire marshal may adjust the
 40 fee every three (3) years to ensure that the fee defrays the actual
 41 costs of the processing, testing, enforcement, and oversight
 42 activities required by this chapter under rules adopted by the fire

prevention and building safety commission. However, the fee for each brand of cigarette may not exceed one thousand dollars (\$1,000).

(g) If a manufacturer has certified a cigarette under this section, and after submitting the certification, makes a change to the cigarette that is likely to alter the cigarette's compliance with the reduced cigarette ignition propensity standards required by this chapter, that cigarette may not be sold or offered for sale in Indiana until the manufacturer retests the cigarette under the testing standards in section 13 of this chapter and maintains records of that retesting as required by section 16 of this chapter. An altered cigarette that does not meet the performance standard in section 13 or 14 of this chapter may not be sold in Indiana.

Sec. 22. (a) The reduced ignition propensity standards for cigarettes fund is established. Money in the fund may be used to support processing, testing, enforcement, and oversight activities under this chapter. The fund shall be administered by the state fire marshal.

(b) The expenses of administering the fund shall be paid from money in the fund.

(c) The treasurer of state shall invest money in the fund not currently needed to meet the obligations of the fund in the same manner as other public money may be invested.

(d) The fund consists of:

(1) certification fees collected under section 21 of this chapter; and

(2) grants, gifts, and donations intended for deposit in the fund.

(e) The money in the fund at the end of the state fiscal year does not revert to the state general fund.

Sec. 23. (a) Packages of cigarettes that are certified by a manufacturer under section 21 of this chapter must be marked to indicate compliance with the requirements of section 12 of this chapter. The marking must be in eight (8) point type or larger and consist of:

(1) modification of the product UPC bar code to include a visible mark printed at or around the area of the UPC bar code. The mark may consist of alphanumeric or symbolic characters permanently stamped, engraved, embossed, or printed in conjunction with the UPC bar code;

(2) any visible combination of alphanumeric or symbolic characters permanently stamped, engraved, embossed, or

C
o
p

printed upon the cigarette package or cellophane wrap; or
 (3) stamped, engraved, embossed, or printed text that
 indicates that the cigarettes meet the standards of this
 chapter.

(b) A manufacturer shall use only one (1) marking, and shall
 apply this marking uniformly for all packages, including packs,
 cartons, and cases, and brands marketed by that manufacturer.

(c) The manufacturer shall notify the state fire marshal of the
 marking that is selected.

(d) Before certification of any cigarette, a manufacturer shall
 submit the manufacturer's proposed marking to the state fire
 marshal for approval. Upon receipt of the request, the state fire
 marshal shall approve or disapprove the marking offered, except
 that the state fire marshal shall approve:

(1) a marking in use and approved for sale in New York under
 the New York Fire Safety Standards for Cigarettes; or

(2) the letters "FSC," which signifies Fire Standards
 Compliant, appearing in eight (8) point type or larger and
 permanently stamped, engraved, embossed, or printed on the
 package at or near the UPC bar code.

Proposed markings are considered approved if the state fire
 marshal fails to act within ten (10) business days after receiving a
 request for approval.

(e) A manufacturer may not modify its approved marking
 unless the modification has been approved by the state fire marshal
 under this section.

(f) A manufacturer certifying cigarettes under section 21 of this
 chapter shall:

(1) provide a copy of the certifications to all wholesale dealers
 and agents to which the manufacturer sells cigarettes; and

(2) provide sufficient copies of an illustration of the package
 marking used by the manufacturer under this section for each
 retail dealer to which the wholesale dealers or agents sell
 cigarettes.

Wholesale dealers and agents shall provide a copy of the package
 markings received from the manufacturers to all retail dealers to
 which the wholesale dealer or agent sells cigarettes. Wholesale
 dealers, agents, and retail dealers shall permit the state fire
 marshal, the department of state revenue, the alcohol and tobacco
 commission, and their employees to inspect markings on the
 cigarette packaging.

Sec. 24. (a) A manufacturer, a wholesale dealer, an agent, or

 2 cigarettes, other than through retail sale, in violation of section 12

 4 hundred dollars (\$100) for each pack of cigarettes sold or offered
 5 for sale. However, the penalty against a person or an entity may
 6 not exceed one hundred thousand dollars (\$100,000) during any
 7 thirty (30) day period.

8 (b) A retail dealer who knowingly sells or offers to sell cigarettes
 9 in violation of section 12 of this chapter is subject to a civil penalty
 10 not to exceed one hundred dollars (\$100) for each pack of
 11 cigarettes sold or offered for sale. However, the penalty against a
 12 retail dealer may not exceed twenty-five thousand dollars (\$25,000)
 13 during any thirty (30) day period.

14 (c) In addition to any penalty prescribed by law, any
 15 corporation, partnership, sole proprietor, limited partnership, or
 16 association engaged in the manufacture of cigarettes that
 17 knowingly makes a false certification under section 21 of this
 18 chapter is subject to a civil penalty of at least seventy-five thousand
 19 dollars (\$75,000). However, the penalty may not exceed two
 20 hundred fifty thousand dollars (\$250,000) for each false
 21 certification.

22 (d) A person that violates any other provision of this chapter is
 23 subject to a civil penalty for a first offense not to exceed one
 24 thousand dollars (\$1,000), and for a subsequent offense not to
 25 exceed five thousand dollars (\$5,000), for each violation.

26 (e) A cigarette that has been sold or offered for sale that does
 27 not comply with the performance standard required by section 13
 28 or 14 of this chapter is subject to forfeiture. Cigarettes forfeited
 29 under this section must be destroyed. However, before the
 30 destruction of any cigarette forfeited under this section, the holder
 31 of the trademark rights in the cigarette brand is allowed to inspect
 32 the cigarette.

33 (f) In addition to any other remedy provided by law, the state
 34 fire marshal may file an action in a court of competent jurisdiction
 35 for a violation of this chapter, including petitioning for injunctive
 36 relief or to recover any costs or damages suffered by the state
 37 because of a violation of this chapter, including enforcement costs
 38 relating to the specific violation and attorney's fees. Each violation
 39 of this chapter or rules adopted under this chapter constitutes a
 40 separate civil violation for which the state fire marshal may obtain
 41 relief.

42 (g) A law enforcement officer or representative of the state fire

 6 the destruction of any cigarette seized under this section, the holder
 7 of the trademark rights in the cigarette brand is allowed to inspect
 8 the cigarette.

9 **Sec. 25. (a) The:**

10 (1) department of state revenue, in the regular course of
 11 conducting inspections of wholesale dealers, agents, and retail
 12 dealers, as authorized under IC 6-7; and
 13 (2) alcohol and tobacco commission;
 14 may inspect cigarettes to determine if the cigarettes are marked as
 15 required by section 23 of this chapter.

16 (b) The department of state revenue and the alcohol and tobacco
 17 commission shall notify the state fire marshal upon the discovery
 18 of cigarettes that are not marked as required.

 8 (1) are or will be stamped for sale in another state; or
 9 (2) are packaged for sale outside the United States;
 10 and the person or entity has taken reasonable steps to ensure that
